Dear Fellow Residents:

As we look ahead to the remainder of 2011, I'd like to take a moment of your time to assure you that your township committee members and employees are committed to providing you with the services and programs essential to daily living. We recently completed our budget process and the Township continues to operate conservatively. There have been minimal or no increases in the departmental budgets. We continue to explore shared services opportunities as we are looking to save taxpayer money while continuing the quality of services and programs you are accustomed to.

I am proud to say we have exceptional municipal services here in the Township. We are very fortunate to have a full time police department. Our Public Works Department is one of the best in Warren County with great work ethics. As I'm sure you have noticed, we began re-paving some of our roads, with plans to re-pave others later this year. We have a professional and extremely responsive First Aid Squad through a partnership with Washington Borough. Our Code and Construction Department was brought in-house a few years ago and has been instrumental with State mandated items. And we continue to have an excellent working relationship with the Township schools.

Again, I'd like to say “Thank You” to all of our volunteers. Many of you graciously volunteer your time with our sports programs or on various committees. Others get involved in community projects or in the schools. I encourage anyone not yet volunteering to get involved. We are always looking for people to come out and make a difference in the community.

We are currently in the process of renovating our website by giving it a fresh new look and making information more easily accessible to you. Please check it out later this year. If you have any suggestions on the website, or any Township issues, please contact any member of the Washington Township Committee. We value your opinion.

It is truly my pleasure to be the Mayor of Washington Township. I am proud to call this great township home to me and my family.

Sincerely,

Samir Elbassiouny,
Mayor, Washington Township

**DID YOU KNOW?**

- Did you know that 2011 is the 10th anniversary of the "new Meadow Breeze Park" complex?
- Did you know that Meadow Breeze Park consists of 70 acres of Active Park areas?
- Did you know that there are over 550 acres of Passive Park areas in the Township to explore?
- Did you know Washington Township has a Native Plant Arboretum?
- If you answered no to any of these questions but want to find out more, please contact the Township Clerk's office at 908-689-7200 to obtain brochures and maps of all of the above & more!
Solutions to Stormwater Pollution

Easy Things You Can Do Every Day To Protect Our Water

A Guide to Healthy Habits for Cleaner Water

Pollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies and the ocean and lakes our children play in. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings: You name it and it ends up in our water.

Stormwater pollution is one of New Jersey’s greatest threats to clean and plentiful water, and that’s why we’re all doing something about it.

By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water, and it saves the high cost of cleaning up once it’s dirty.

As part of New Jersey’s initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies including colleges and military bases must adopt ordinances or other rules prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines or other penalties.

As a resident, business, or other member of the New Jersey community, it is important to know these easy things you can do every day to protect our water.

Limit your use of fertilizers and pesticides

- Do a soil test to see if you need a fertilizer.
- Do not apply fertilizers if heavy rain is predicted.
- Look into alternatives for pesticides.
- Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that requires little or no fertilizer.
- If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it.

Make sure you properly store or discard any unused portions.

Properly use and dispose of hazardous products

- Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze, and paints.
- Do not pour any hazardous products down a storm drain because storm drains are usually connected to local waterbodies and the water is not treated.
If you have hazardous products in your home or workplace, make sure you store or dispose of them properly. Read the label for guidance.

Use natural or less toxic alternatives when possible.

Recycle used motor oil.

Contact your municipality, county or facility management office for the locations of hazardous-waste disposal facilities.

---

**Clean up after your pet**

- Many municipalities and public agencies must enact and enforce local pet-waste rules.
- An example is requiring pet owners or their keepers to pick up and properly dispose of pet waste dropped on public or other people's property.
- Make sure you know your town's or agency's requirements and comply with them. It's the law. And remember to:
  - Use newspaper, bags or pooper-scoopers to pick up wastes.
  - Dispose of the wrapped pet waste in the trash or unwrapped in a toilet.
  - Never discard pet waste in a storm drain.

---

**Dispose of yard waste properly**

- Keep leaves and grass out of storm drains.
- If your municipality or agency has yard waste collection rules, follow them.
- Use leaves and grass clippings as a resource for compost.
- Use a mulching mower that recycles grass clippings into the lawn.

---

**Keep pollution out of storm drains**

- Municipalities and many other public agencies are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to local waterbodies.
- Do not let sewage or other wastes flow into a stormwater system.

---

**Don’t litter**

- Place litter in trash receptacles.
- Participate in community cleanups.

---

**Don’t feed wildlife**

- Do not feed wildlife, such as ducks and geese, in public areas.
- Many municipalities and other public agencies must enact and enforce a rule that prohibits wildlife feeding in these areas.

---
